SYEDA SOGHAT ZEHRA JAFFRI

ANDROID DEVELOPER

ABOUT ME

As an Android Developer with a strong passion for the field, I have completed a course in Android development and have gained experience in the development of Android applications. During this time, I have worked as a freelancer and completed several projects that showcase my technical abilities in both Kotlin and Java. With a strong desire to learn and grow in the field, I am now seeking a challenging junior role that enables me to utilize my skills and contribute to the growth of the Android industry. I am a quick learner and a dedicated team player, making me a valuable asset to any team.

EXPERIENCE

- Utilized Java and Kotlin programming languages to develop Android applications.
- Applied Object-Oriented Programming (OOP) principles to ensure clean, efficient code.
- Implemented KodeinAware Dependency Injection (DI) framework for efficient and scalable application development.
- Developed applications using Model-View-ViewModel (MVVM) architecture for effective separation of concerns and improved maintainability.
- Proficient in Android components such as LiveData, ViewModel, Room, Navigation, and NavGraph for building robust, scalable applications.
- Experienced in integrating third-party libraries and APIs such as Firebase, and Facebook SDK for enhanced functionality and user experience.
- Developed and maintained clean, efficient, and reusable codebase using version control tools such as GitHub.
